Financial residential attractiveness

high
high

RDI indicator for all household types, synthetic indicator, CH = 0, 2021

Informations

- RDI indicator: standardized figure of the freely disposable income for a broad middle class (Swiss average = 0)
- + Income (employment, assets, occupational pensions, transfer payments)
- Mandatory charges (income and wealth taxes, social security contributions, pension contributions, health insurance premiums)
- Fixed costs (living costs, ancillary expenses, electricity costs)
- Commuting costs (partly tax-deductible)
- Childcare (daycare costs, partly tax-deductible)
- = Freely disposable income

Financial residential attractiveness

Factsheet | Altishofen (Edition 2021)

districts for Credit Suisse clients

What about the financial residential attractiveness of my municipality? Where would my family have more money left after a move? Credit Suisse's factsheets provide six pages of information on freely disposable income for singles, married couples (without children), retired couples, families (with two children) and families (with two children in daycare). For each household type, three different sample households are shown, corresponding to lower, middle and higher incomes, respectively.

Here's the least expensive place for you to live

Finally, Credit Suisse clients can also order a personalized analysis tailored to their household in the best possible way.

Credit Suisse study on the financial residential attractiveness of Swiss municipalities and cantons

The cost of living varies from one part of Switzerland to another. Credit Suisse economists have calculated the total disposable income - i.e. the amount of household income left over for discretionary spending or saving after deducting all mandatory expenses and fixed costs - of more than 120,000 sample households across every municipality in Switzerland.

Dynamic web tool: credit-suisse.com/rdi

In addition to the study, you can also find a web tool at creditsuisse.com/rdi that shows the most important results of the study using interactive maps. Alongside the financial residential attractiveness, information is also available on the factors that determine the assessment, first and foremost mandatory charges, fixed costs, commuting costs, and
